Lemuria¹

¹Independent researcher; Manila, Philippines; ,

2026-03-26

Abstract

In this general notes and remarks article, we seek to cover some subjects too small for their own dedicated article.

1 Notes

1.1 Missing 2026.0001 and 2026.0002?

lict2026.0001 and lict2026.0002 are deliberately missing from the *Journal's* listings, as these IDs correspond to these two early blog posts on our lead author's website from the early days of the taxonomy. This is not an error.

- <https://lemuria.ph/blog/2026/the-first-lemurian-clothing-taxonomy/> (lict2026.0001)
- <https://lemuria.ph/blog/2026/picniflava-chattanoogensis/> (lict2026.0002)

1.2 *G. johnsonia* paper error

In Lemuria (2026b, sec. 1.2), we made a formatting error by failing to include a reference to Lemuria (2026a).

We discovered *Gunnelaurentia johnsonia* through browsing the social media presence of the American sewist Lauren Johnson, who we discovered while researching Nina Lee's Kew dress for our March 2026 monograph (see).

2 Information

Lemuria's (Informal) Journal of Clothing Taxonomy is the gray literature journal of the First Lemurian Clothing Taxonomy, a system by Lemuria to assign Latin names to dresses using biological methods. The author, known

mononymically as just Lemuria, is an Filipino programmer and independent gray literature researcher from Manila.

Disclaimer: *Lemuria's (Informal) Journal of Clothing Taxonomy* is a non-peer-reviewed, single-author, citizen science/gray literature publication with no institutional backing.

Publisher article ID: 2026.0007

At publication, the journal did not have a DOI prefix.

Work began on the paper on 2026-03-26 and was published the same day.
